

## 240 VOLT GFCI AND DISCONNECT

An innovative control that sets new standards in ground fault protection.

### FEATURES:

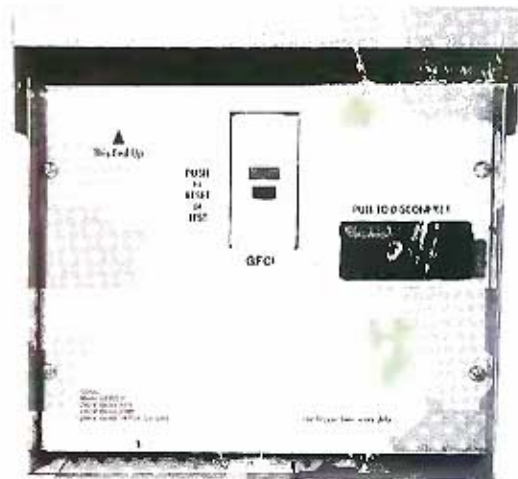

- Easy to use pull-out disconnect
- Optional semi-flush surface mount kit
- Rainproof disconnect to meet NEMA 3R standards for surface mounting
- 3 pole 50 amp contactor opens 'L1', 'L2' and neutral
- Leviton class 'A' high current GFCI provides load side grounded neutral protection on 3 wire (240v) and 4 wire (110/220v) installations
- Complies with NEC 680.42 & 680.12
- UL listed (6229)
- Unbalanced loading between 'L1' and 'L2' to neutral will not cause nuisance tripping
- Knockout holes on back, bottom, and sides

• Ideal for use with spas, swimming pools, fountains, submersible and therapeutic equipment.

• Self contained "2 in 1" unit solves space and compatibility issues.
